

Ancient Egypt Unit Test Study Guide

Materials to Study: Textbook and Workbook Chapter 7-9, Top 10 Discoveries

Section A- Geography

Use a graphic organizer to organize the characteristics of the Egyptian geography and environment.

You may organize your ideas by comparing and contrasting why people settled in Egypt/Kush vs Canaan.

You may want to organize your ideas into the positive and negative parts of Egyptian geography. These are ways to help you study.

Words to consider: topography, vegetation, Nile River, Nile Delta, Mediterranean Sea, diverse, broadleaf evergreen forest (hint pg 69)

Section B - Government

Create a graphic organizer classifying each pharaoh and their achievements. Create a symbol for each pharaoh that will help you remember their significance in Egyptian history

What is meant by the Dual Role of the Pharaoh?

Section C - Social Structure

Pyramid

Can you label a chart of the Egyptian Society Pyramid?

Create a chart comparing the characteristics and daily life of Government officials, priests, scribe, artisan, and peasants/farmer. You may want to tape a few pieces of paper together to do this one!

Section D - Big Ideas

possible essay question

How did religion impact the Egyptian culture? Consider architecture, government and belief in the afterlife.

How did Egyptians use technology to enhance their civilization?

REMEMBER

Mesopotamia

You should be able to explain how Egypt was civilization and give examples from your Textbook, top ten discoveries, and/or Egyptian challenges

P.S - You do not need to know the steps to make a mummy!

Egypt / Nubia

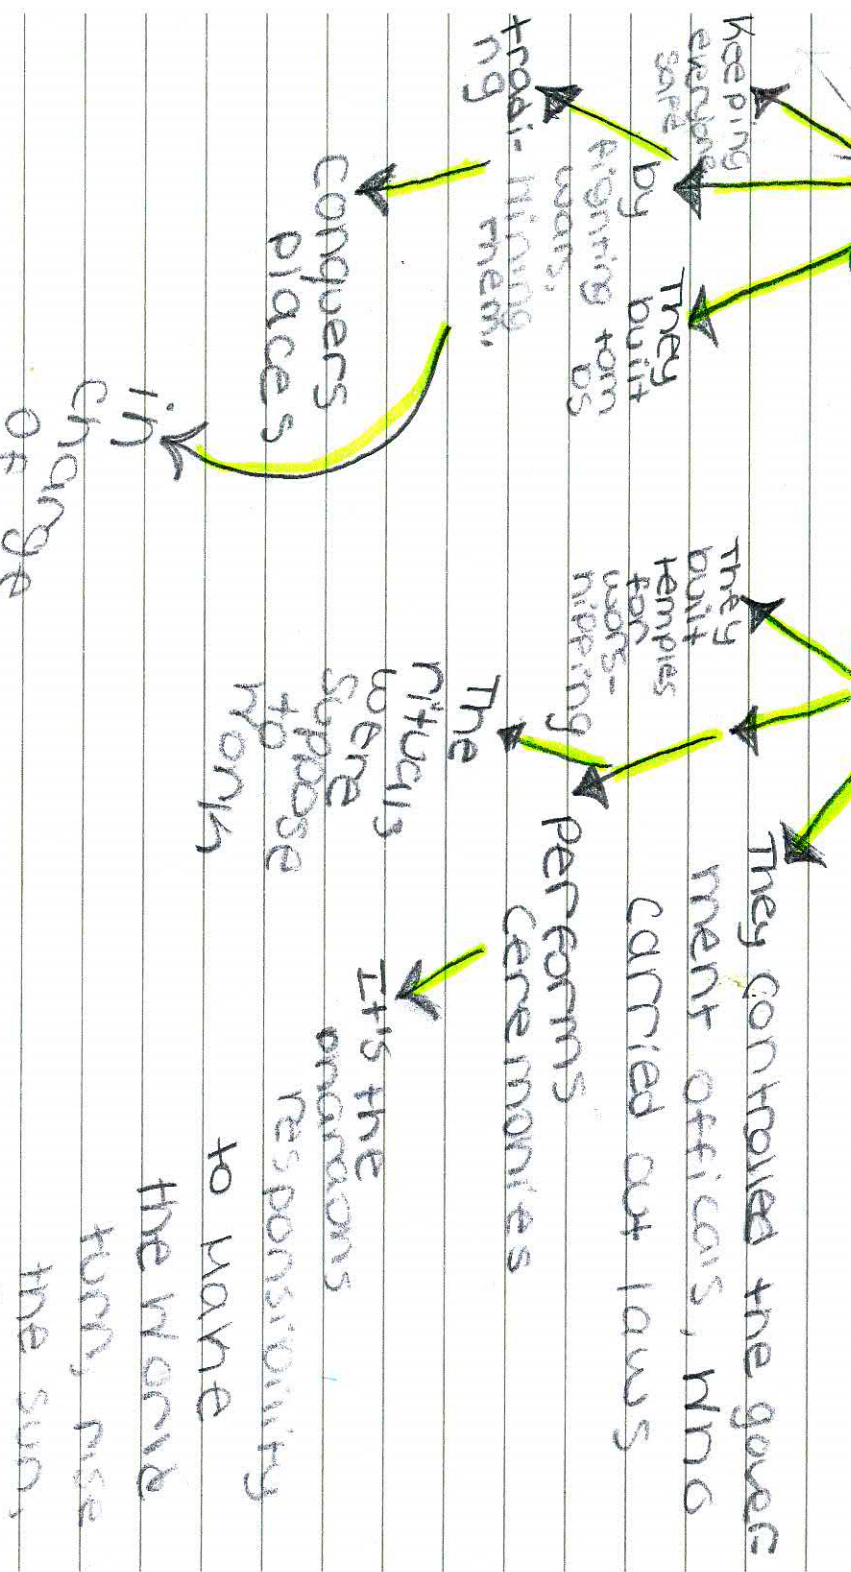

V.S

Section B Ques. 1: Pharaoh's

king

god

Section D Ques. 2:

They had papyrus, that was used for almost everything.

Cosmetics was technology, they used perfume another technology was the pyramids which took a long time to do.

They also mummified mummies very well. That we can still see them very well, in about 1000 years, or more.

Section D: Ques 1:

Religion impacted a lot in Egypt by, they would always make my friend someone so that they would still look like themselves for the afterlife.

And they would spend their money like preparing for the afterlife. They also built a boat for the King Khufu, for him to go to the afterlife. The built tombs for themselves. Which were very creative.

Section D Ques 3:

Egypt was a civilization by, they always had organized religion and believed in the afterlife. Their government was really good, they had pharaohs the protected them, and each pharaoh had a very good skill. They were always supplied with food.
